

Academic Integrity Case Management Policies Across the 7Cs

By action of the Academic Dean's Committee, the policies governing academic integrity in cross-registration situations are as follows:

A student charged with academic dishonesty in a course taken outside the home college shall be tried according to the procedures for handling such cases in the home institution. Faculty members are obliged to accept the decision of the student's college and may not impose a penalty should the appropriate hearing panel fail to find guilt. Any student grievance concerning a grade given by an instructor as a result of such a hearing decision will also be handled according to the rules of the student's home college.
