OUR MISSION

Claremont McKenna has been guided by a distinctive higher education mission since 1946: To prepare students for thoughtful and productive lives and responsible leadership in business, government, and the professions.

Crescit cum commercio civitas.

"Civilization prospers with commerce."

"One of the best parts about the CMC community is how close-knit it is, inside and outside of the classroom. Whether you're walking to class or eating in the dining hall, it seems like you'll always see a familiar face. The tight-knit community also makes class more engaging and helps break down some of the barriers to classroom participation. The communities that I'm a part of on campus make me feel like I belong at CMC."

Academic Areas of **INTEREST**

With a curricular emphasis on government, economics, public affairs, finance, and international relations, we prepare Claremont McKenna students for the leadership roles required to address the world's grand challenges.

Students have the opportunity to pursue a variety of academic areas of interest, including the innovative Integrated Sciences program and the prestigious Oxford-style PPE program (Philosophy, Politics, and Economics). In addition to traditional CMC majors, our academic areas of interest include dual majors, sequences (akin to a minor), and integrated areas within other majors, as well as intercollegiate majors and off-campus majors offered through *The Claremont Colleges* consortium. Admission to off-campus majors is determined by those programs and is not guaranteed. For more details, please refer to the CMC catalog.

LEAD *Your Academic Future*

KRAVIS DEPARTMENT OF INTEGRATED SCIENCES

Leading with innovation and interdisciplinary learning, our integrated sciences program is structured around three global, societal, and scientific challenges: **Health**, **Brain**, and **Planet**. Each CMC student will be prepared to:

- Engage in scientific research, innovation, and problem-solving using advanced experimental and computational methods, including both theory and applications of AI
- Collaborate and lead teams with diverse bodies of experience and expertise
- Communicate complex topics to a range of audiences
- Pursue leadership roles in research, consulting, policy, and entrepreneurship
- Create exceptional pathways for medical school and other graduate programs and health professions

ROBERT DAY SCIENCES CENTER

The Kravis Department of Integrated Sciences is housed in the new Robert Day Sciences Center (RDSC), an architectural wonder for the entire campus to enjoy.

Features include:

- 14 labs, 7 classrooms, and 25 faculty offices that facilitate collaborative learning, research, and problem solving
- An Innovation Studio to foster the development and application of new technologies
- Social spaces (cafe, library, atrium, and 8 terraces) with stunning, panoramic views

Renowned guest speakers at the Marian Miner Cook Athenaeum every year

The **Athenaeum**

Unique in American higher education, the Marian Miner Cook Athenaeum (the “Ath”) is the heart of intellectual and social engagement at Claremont McKenna. Four nights a week, the Ath invites scholars, public figures, thought leaders, artists, and innovators to engage with students, faculty, and staff over a meal. Students have priority to sit at the head table with the speaker and two student Woolley Fellows.

Outstanding OUTCOMES

92%
of students have participated in at least one meaningful internship by senior year

98%
of first-years engaged with the Soll Center for Student Opportunity in 2024-25

97%
of graduates have defined plans within six months of graduation

50%
of eligible students received Sponsored Internships and Experiences Program funding in summer 2025

Roughly
$2M
SIE funding awarded every year

$86,000
median starting salary for recent graduates

A Commitment to
ACCESS AND AFFORDABILITY

100%
of a student's demonstrated financial need is met

46%
of students (full-time) receive financial aid

17.1%
of students are Pell Grant recipients

$69,932
of average need-based financial aid package (2025-2026)

Our **need-blind policy** applies to U.S. citizens and permanent residents.

In order to provide singular, transformative opportunities to each and every student, CMC established the **Kravis Opportunity Fund** to increase student access through a range of benefits and support structures (travel, technology, clothing, etc.) for those whose families have fewer resources.

Rising sophomores on need-based financial aid receive **up to $5K** in funding for an approved internship or experience, plus a grant to offset their summer savings requirement.

Early support from the Kravis Opportunity Fund helped Maureen reach for the experiences she wanted "without worrying about the cost."

"CMC started me on the path to travel and explore," said Maureen, who studied in Ghana and Sierra Leona for research projects. "I know I can carry those learning moments to the rest of my life and career."

–**Maureen Tchatchoua, Religious Studies**
Hometown: Chicago, Illinois
